LAPEER — Lapeer Team Work provides Employment Support Services.

“At Lapeer Teamwork we engage with area businesses to understand their workforce needs and match potential employees to these positions,” said Executive Director Ann Zettle. “The potential employees participate in several training programs to ensure businesses who work with our ESS program gain great employees to fill positions and help get the job done, whatever that job may be.”

Zettle added, “Our ESS division extends to working with those individuals who have barriersto employment in an attempt to secure gainful community employment. Once individuals are placed, we

provide follow up and provide supports for continued success.”

ESS is just one part of Lapeer Team Work, which has the mission to maximize personal growth, community inclusion, and self-sufficiency through a range of training, education and vocational opportunities. Lapee Team Work is dedicated to providing jobs, opportunities, and independence for community members with disabilities.

“These programs have enhanced the lives of our participants,” said Zettle. “It’s hard to put into words exactly how important meaningful employment is to those who are served by Lapeer Team Work. It gives an individual purpose, pride, and a sense of

belonging that those we serve can sometimes lack.”

Training is done with the help of Lapeer Team Work job coaches, who also accompany trainees as they work on job sites to ensure employers – Lapeer Team Work customers – are 100% satisfied with the services provided.

“We’re thankful to this community and those who continue to assist Lapeer Team Work fulfill our mission,” said Zettle. “If you have any open positions in your organization that we may be able to help fill, please reach out to Lapeer Team Work at 810-667-2710.”

Founded in 1989, Lapeer Team Work, Inc. is a not-for-profit community rehabilitation organization.

James, Larry and Barb participate in the employment training program at Lapeer Team Work.
